

WMT AG is a newly established biotech company in beautiful Heidelberg committed to developing novel gamechanging cancer therapeutics. Our founders team has a depth of 100 (wo)manyyears of experience in the field of drug discovery and has brought four new drug candidates into clinical development. We are looking for several self-motivated interns for 3-6 months of paid-for internships with an option for a fulltime position offering thereafter. You get the rare chance to participate in and contribute to the development of novel cancer therapeutics.

# Medicinal Chemistry Intern

## Your responsibilities:

You will gain experience in the use of modern organic chemistry synthetic, purification and analytic technologies through hands-on experience and a dedicated tutor. You will deepen your understanding in organic and medicinal chemistry and become proficient in understanding structure-activity relationships. Also, you will learn how to maintain well documented laboratory records.

## Your experience/qualifications:

You are a passionate and self-motivated chemistry student who is in the penultimate or last year of study, or in a gap year before starting a PhD. Candidates with an MSc in chemistry from abroad are highly welcome!

You should have some experience with small molecular organic synthesis.

## We offer to you:

If you want to experience how it is to make an impact, how to work successfully and take decisions on challenges, how to work in small teams with flat hierarchies in a professional and at the same time humane atmosphere then we would be delighted to welcome you in our team of individuals from diverse backgrounds and cultures. We love open-minded and proactive individuals who take responsibility. The position is an excellent chance to gain valuable, real world work experience in the biotech industry and acquire professional training of skills you will need there. This will make a solid addition to any resume.

If interested, please send us your letter of motivation to [jobs@wm-therapeutics.com](mailto:jobs@wm-therapeutics.com), along with the convincing application documents and indication of your availability. We are looking forward to your application!
